

Quality Policy

Perna Group is a well-established, dynamic, forward thinking Western Australian owned and operated specialist in supply, fabrication and field erection of structural steelwork, mining infrastructure and general engineering for customers in Australia. The business has gained significant recognition for the quality of its service.

Perna Group offers state of the art methods, technologies and equipment and makes sure that customers are properly and comprehensively consulted, and that the most effective solution to meet their needs is professionally applied.

The primary objective of Perna Group is to provide efficient, cost effective service which meets or exceeds the diverse needs and expectations of their customers throughout Australia.

Perna Group shall set a framework for achieving specific quality objectives.

Executive management of Perna Group recognises that a complete commitment to quality throughout its operations is the key to meeting this objective and, with the co-operation of all employees and associates, have established a comprehensive quality management system.

Perna Group acknowledges the importance of continuing research, education and continual improvement to the quality management system, and commit the entire organisation to consistently meeting the requirements of:

AS/NZS ISO 9001:2015
